

## On-the-day wedding stationery price guide 2024

All prices quoted below for printed designs are based on being printed on uncoated, 350gsm white cardstock. Paper stock can be upgraded (various options are available, including textured paper, plantable seed paper, recycled paper), as well as print finishes (such as hot foiling, debossing/embossing, white ink print) for an additional fee.

If you are interested in upgrading your paper, please indicate this in the wedding contact form, and a full quote will be provided after your initial consultation.
